UNFOLLOW YOUR PASSION: HOW to Tap Your Creative Skills to See Your Work in A Whole New Way

We were looking for some straight talk from Terri and... we got it! There were so many great take away's from this talk. We've shared ours below. But... don't just take our word for it. Check out her on-demand session and let us know what really spoke to you.

- **DEBUNK THE "WE'D BE HAPPIER IF WE WERE..." MYTHS.** The ones around talent, inspiration, motivation and passion. We give way, way too much credit to "talent" and "skill" often gets the short stick – but SKILL gives your ability, your talent, your passion a place to show itself.

- **MINDSET MATTERS – FIXED VS GROWTH.** People that believe their passion is "fixed" are more likely to curtail other interests and give up when things get tough. Learn the value of a growth mindset with tips and tools to get you there.

- **THINK ABOUT WHAT YOU DO IN AN ENTIRELY NEW WAY.** Do you think about what you do as a job, career, or a calling? Terri provides tools to help you assess were you are... and help on HOW to get where you'd like to be.

- **CREATIVE PRACTICE MATTERS.** Even more than inspiration and motivation. We need to be bored sometimes – boredom isn't a problem. It's potential.

- **WE NEED TO TAP INTO OUR INSIGHTS AND INTUITION.** Terri takes us through a quick exercise to help us understand what we can do to bring more of ourselves to the work we do. And to stop focusing on feedback to "fix" but instead give attention to what we do best.
